

K V H Sai Kumar

Aspiring Full Stack Developer | Front End Development | Back End Development

As a passionate computer science student, I am always eager to learn and explore web development. My primary role is to develop component-based web applications, from creating user interfaces to building the backend server and database. I particularly enjoy working with HTML, CSS, and Java programming.

However, JavaScript is the main object that plays a critical role in my development process.

INTERNSHIPS

Technical Hub

Jul '22 - Nov '22

Full Stack Development- Intern

Surampalem/On-Site

During my training period, I have gained significant knowledge on Full Stack Development. I learned how to create static web pages using HTML and CSS, and then how to enhance their responsiveness using Bootstrap, which is a CSS framework. Subsequently, I learned how to implement functionalities and create component-based applications using React JS. To connect websites to web servers, I gained proficiency in Node and Express JS. To store data, I learned to use MongoDB as a database. Overall, these skills have helped me become a competent Full Stack Developer.

PROJECTS

Resource Management System

April'22-May'20

Technical Hub

Surampalem/Onsite

The Main motive of this project is to provide the resource systematically named as Resource Allocator. Where there is relationship of client and server. Network Credentials and bundles of paper are some of the resources that are most widely used. This is A Complete Full Stack Project including both Frontend and Backend.

Technologies Used:HTML5 ,CSS3, JAVA SCRIPT,REACT JS,BOOTSTRAP

Lakshya School Portal

Sep'22-Nov'22

Technical Hub

Surampalem/Onsite

The main Objective of this project is used to provide Various facilities to the management regarding fee details, Attendance and Port Folio of the school management.

Technologies Used:HTML5,CSS3,JAVA SCRIPT,BOOTSTRAP

EDUCATION

Bachelor of Technology	Aug'2020-Current
Aditya Engineering College	Surampalem, India
CGPA : 8.30 (till date)	
Board of Intermediate Education	jun'2017-May'2019
Madhuri Junior College	Gollaprolu,India
CGPA: 9.63	
Board of Secondary Education	April'2016-May'2017
Madhuri Vidyalaya	Gollaprolu, India
CGPA: 9.80	

KEY SKILLS

- ❖ **Programming Languages** : Java
Intermediate level programming.
- ❖ **Mark up Languages** : HTML5
- ❖ **Scripting Languages** : Java Script
- ❖ **Frame Works** : Bootstrap, React js
- ❖ **Tools Known:** Figma

STRENGTHS

- ❖ Enthusiasm
- ❖ Discipline
- ❖ Determination
- ❖ Analytical Thinking

DECLARATION

I hereby declare that all the above information is true and best of my Knowledge and belief.
